PRODUCT DESCRIPTION

The Martin Yale 930A is a continuous form signing machine designed to imprint reams of checks, forms, or similar documents. Signs and endorses checks and documents from 5.5 to 16.5 wide and 3.5 to 7 long. Handles up to 240 documents per minute. Includes security features such as locking key access to prevent unauthorized use. Optional tri color ink roller is available for added security. Signatures are available as single or double imprints and are not included in the product price. A signature form will be sent upon purchase for completion. This form will be used to create a customized signature plate which can include security background features. The original form must be returned along with a voided check for signature pressure and alignment.
